INFORMATION, AUTHORIZATION, & CONSENT TO TELEMENTAL HEALTH

Thank you so much for choosing the services that I provide. This document is designed to inform you about what you can expect from me regarding confidentiality, emergencies, and several other details regarding your treatment as it pertains to TeleMental Health. TeleMental Health is defined as follows:

“TeleMental Health means the mode of delivering services via technology-assisted media, such as but not limited to, a telephone, video, internet, a smartphone, tablet, PC desktop system or other electronic means using appropriate encryption technology for electronic health information. TeleMental Health facilitates client self-management and support for clients and includes synchronous interactions and asynchronous store and forward transfers.” (Georgia Code 135-11-.01)

TeleMental Health is a relatively new concept despite the fact that many therapists have been using technology-assisted media for years. Breaches of confidentiality over the past decade have made it evident that Personal Health Information (PHI) as it relates to technology needs an extra level of protection. Additionally, there are several other factors that need to be considered regarding the delivery of TeleMental Health services in order to provide you with the highest level of care. Therefore, I have completed specialized training in TeleMental Health. I have also developed several policies and protective measures to assure your PHI remains confidential. These are discussed below.

The Different Forms of Technology-Assisted Media Explained

Telephone via Landline:

It is important for you to know that even landline telephones may not be completely secure and confidential. There is a possibility that someone could overhear or even intercept your conversations with special technology. Individuals who have access to your telephone or your telephone bill may be able to determine who you have talked to, who initiated that call, and how long the conversation lasted. If you have a landline and you provided me with that phone number, I may contact you on this line from my own landline in my office or from my cell phone, typically only regarding setting up an appointment if needed. If this is not an acceptable way to contact you, please let me know. Telephone conversations (other than just setting up appointments) are billed at my hourly rate.

Cell phones:

In addition to landlines, cell phones may not be completely secure or confidential. There is also a possibility that someone could overhear or intercept your conversations. Be aware that individuals who have access to your cell phone or your cell phone bill may be able to see who you have talked to, who initiated that call, how long the conversation was, and where each party was located when that call occurred. However, I realize that most people have and utilize a cell phone. I may also use a cell phone to contact you, typically only regarding setting up an appointment if needed. Telephone conversations (other than just setting up appointments) are billed at my hourly rate. Additionally, I keep your phone number in my cell phone, but it is listed by your initials only and my phone is password protected. If this is a problem, please let me know, and we will discuss our options.

Text Messaging:

Text messaging is not a secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to text because it is a quick way to convey information. **Nonetheless, please know that it is my policy to utilize this means of communication strictly for appointment confirmations. Please do not bring up any therapeutic content via text to prevent compromising your confidentiality.** You also need to know that I am required to keep a copy or summary of all texts as part of your clinical record that address anything related to therapy.

Email:

Email is not a secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to email because it is a quick way to convey information. **Nonetheless, please know that it is my policy to utilize this means of communication primarily for appointment confirmations. It is my policy that therapeutic content sent via email will be encrypted with password protection in order to prevent compromising your**

confidentiality. You also need to know that I am required to keep a copy or summary of all emails as part of your clinical record that address anything related to therapy. **Keep in mind that any documentation that is read or written is billed at my hourly rate.**

I also strongly suggest that you only communicate through a device that you know is safe and technologically secure (e.g., has a firewall, anti-virus software installed, is password protected, not accessing the internet through a public wireless network, etc.). If you are in a crisis, please do not communicate this to me via email because I may not see it in a timely matter. Instead, please see below under "Emergency Procedures."

Social Media - Facebook, Twitter, LinkedIn, Instagram, Pinterest, Etc:

It is my policy not to accept "friend" or "connection" requests from any current or former client on my **personal** social networking sites such as Facebook, Twitter, Instagram, Pinterest, etc. because it may compromise your confidentiality and blur the boundaries of our relationship.

However, Better Mental Wellness has a **professional** Twitter account and one blog. You are welcome to "follow" me on any of these **professional** pages where I post therapeutic content, and events which may be of interest to you. However, please do so only if you are comfortable with the general public being aware of the fact that your name is attached to Better Mental Wellness. Please refrain from making contact with me using social media messaging systems such as Facebook Messenger or Twitter. These methods have insufficient security, and I do not watch them closely. I would not want to miss an important message from you.

Google, Bing, etc.:

It is my policy not to search for my clients on Google, Bing or any other search engine. I respect your privacy and make it a policy to allow you to share information about yourself with me as you feel appropriate. If there is content on the Internet that you would like to share with me for therapeutic reasons, please print this material out and bring it to your session.

Blogs:

I may post psychology information and therapeutic content on a professional blog, www.authentic-life.net, and www.bettermentalwellness.com. If you have an interest in following my blog, please feel free to do so. However, please be mindful that the general public may see that you're following Authentic-Life Counseling or Better Mental Wellness. Once again, maintaining your confidentiality is a priority.

Recommendations to Websites or Applications (Apps):

During the course of our treatment, I may recommend that you visit certain websites for pertinent information or self-help. I may also recommend certain apps that could be of assistance to you and enhance your treatment. Please be aware that websites and apps may have tracking devices that allow automated software or other entities to know that you've visited these sites or applications. They may even utilize your information to attempt to sell you other products. Additionally, anyone who has access to the device you used to visit these sites/apps, may be able to see that you have been to these sites by viewing the history on your device. Therefore, it is your responsibility to decide if you would like this information as adjunct to your treatment or if you prefer that I do not make these recommendations. Please let me know by checking (or not checking) the appropriate box at the end of this document.

Electronic Record Storage: Your communications with me will become part of a clinical record of treatment, and it is referred to as Protected Health Information (PHI). Your PHI will be kept on my password protected computer in an encrypted file format.

Electronic Transfer of PHI for Certain Credit Card Transactions: I utilize Square or PayPal as the company that processes your credit card information. This company may send the credit card-holder a text or an email receipt indicating that you used that credit card for my services, the date you used it, and the amount that was charged. This notification is usually set up two different ways - either upon your request at the time the card is run or automatically. Please know that it is **your responsibility** to know if you or the credit card-holder has the automatic receipt notification set up in order to maintain your confidentiality if you do not want a receipt sent via text or email. Additionally, please be aware that the transaction will also appear on your credit-card bill. The name on the charge will appear as Authentic-Life Counseling.

Your Responsibilities for Confidentiality & TeleMental Health

Please communicate only through devices that you know are secure as described above. It is also your responsibility to choose a secure location to interact with technology-assisted media and to be aware that family, friends, employers, co-workers, strangers, and hackers could either overhear your communications or have access to the technology that you are interacting with. Additionally, you agree not to record any TeleMental Health sessions.
